

# NINE KILLED IN MID-AIR PLANE COLLISION

## The Loon—Faster Than Sound

"Greatest guided missile in history" is what they call the Navy's new KUV-1, just unveiled during demonstrations at Point Mugu, Calif. Nicknamed the "Loon," the three-ton, jet-propelled flying bomb, based on the German V-1 buzz-bomb, increases effective bombardment range from 25 miles, the best achieved against Japan, to 150 miles. It travels faster than 425 miles an hour, and, being radio-controlled, can change course in flight to seek out its target. In photo above, the \$15,000 missile, launched by four takeoff assisting jet tubes, leaves the launching catapult at 200 mph, dropping the launching carriage. At right, it roars skyward. When jet engine's power is expended, a parachute automatically opens, drops the Loon safely to earth, where recording instruments are checked.

## May Place Parking Meters In Operation On Monday

It appeared today that Salem's 174 parking meters may be placed in actual operation under strict enforcement on about Monday of next week.

The tentative plan being considered by Safety Director C. E. Phillips and Mayor R. R. Johnson today includes placing at least one and possibly two temporary special policemen on the night force, thus relieving Patrolmen Martin Lutsch

## Baptist Building Fund Raised \$520

Another good report today sent the First Baptist church building fund to \$2,867.

Eight contributors added a total of \$520 to the total reported yesterday. These included one \$200, two \$100, one \$50, two \$25 and two \$10 donations.

Now in its second week, the building fund campaign is gaining momentum daily. The News is aiding by accepting contributions at its office. Checks should be made payable to the First Baptist church.

## Lisbon Council To Act On Time Problem Friday

LISBON, April 22.—The Lisbon High school band gave its 19th annual spring concert in the High school auditorium Monday night before a large and appreciative audience.

The program included band and solo numbers the group used in the recent contest at Muskingum college.

## EXTENDED FORECAST

Lake Superior—Temperature will average two to four degrees below normal. Warmer Wednesday. Cooler Thursday. Little change Friday and Saturday. Warmer Sunday. Precipitation will average one fifth to two fifths inch, occurring as rain Thursday and showers about Sunday.

## TERRORISTS BLOW UP BRITISH TRAIN

### Seven Are Killed At Tel Aviv; Two Cheat Death On Gallows

JERUSALEM, April 22.—Terrorists blew up a British troop train southeast of Tel Aviv today, killing at least seven persons, and then machinegunned the wreckage.

The attack was made two hours after two condemned Jews committed suicide with explosives just before they were to have mounted the gallows.

Army sources said they believed the "Egypt Express," bringing soldiers from that country, had been attacked by members of the Jewish underground group, Irgun Zvai Leumi. Four coaches were demolished, apparently by electrically detonated mines under the rails.

Troops and guards were reported to have exchanged fire with the attackers, but no one was captured. One of the dead was a child, another a civilian and five were soldiers. Those at the scene reported seeing arms, legs and other parts of mutilated bodies in the wreckage.

Probably two dozen other persons were trapped in the debris. First accounts said two soldiers and seven civilians were injured seriously and 21 others less seriously.

The doomed Jews, Meyer Feinstein and Moshe Barzani clasped explosives secreted in hollowed oranges to their breasts and died in mangled contortion in Jerusalem prison just before they were to have mounted the 13 steps leading to the hangman's noose. Both were underground members and had been condemned for anti-British violence.

Four other members of Irgun were hanged last week, and Irgun had issued threats of vengeance.

## Cambridge Mother of 11 Wins Ohio Honor

CAMBRIDGE, April 22.—Mrs. John L. Miller, who has been designated "state mother of the year" for Ohio, is the mother of 11 children, all college graduates.

The designation was announced by the American Mothers' committee of the Golden Rule foundation in New York.

At the age of 86, Mrs. Miller enjoys good health and visits with her 23 grandchildren and eight great-grandchildren at least once a year. Five of her eight sons served in World War I and four grandsons and two granddaughters served in World War II.

Mayor Vern F. Ross of Cambridge reported, "she had the courage to face the world when left a widow with 11 children under age and a farm the only means of livelihood."

She encouraged her sons to take part in clean sports, several taking part in big league games."

## Double Trouble, Or Something Like That

LOS ANGELES, April 22.—If you think you have troubles, listen to those of Raymond Hoffman, Southern Pacific railroad machinist, and his wife.

They have 15-month-old triplets, Dennis, Donna and Diane. They have been notified they must vacate their house.

Mrs. Hoffman expects motherhood again in June.

And her doctor says it will be twins!

## Leetonian Faces Grand Jury After Stabbing

Homer Cassinger of Leetonia was bound over to the grand jury on \$2,500 bond by Mayor Fred Galley of Leetonia Monday on a charge of stabbing with intent to wound Earl Little, Jr., his son-in-law, also of Leetonia, last Saturday night.

Little is in Salem City hospital. Cassinger pleaded not guilty.

## SNYDER ASKS SENATE KILL TAX CUT BILL

### Treasury Head Suggests Study For Reductions At Later Date

(By Associated Press)  
WASHINGTON, April 22.—Secretary of the Treasury Snyder urged the senate today to kill the bill—passed overwhelmingly by the house—to cut income taxes from 30 per cent at the bottom to 10.5 per cent at the top.

Snyder renewed the Truman administration's opposition to any tax cut for at least another 14 months, but suggested that congress with help from the Treasury, "review the whole tax system in anticipation of later tax reductions."

Declaring that a general cut now is "neither necessary nor appropriate," the first witness before the senate finance committee hearing on the house-passed bill marshalled these arguments:

1. Not a Hardship, Claim  
Employment is high, national income is at a record peacetime level, and "under these favorable economic conditions present taxes do not impose an excessive hardship on the American people."
  2. "Inflationary pressures have still not subsided... so long as inflationary pressures exist, there is good economic reason for maintaining high taxes."
  3. The current budgetary situation calls for the maintenance of existing taxes. He said there is not clear evidence that expenditures in the next fiscal year can be reduced below the President's budget figures of \$37,500,000,000.
  4. It would be "sound financial policy" to achieve as large a budget surplus as possible and apply it against the \$258,000,000,000 public debt.
  5. By concentrating a large reduction in the individual income tax alone, later well-balanced tax revision would be made more difficult "and perhaps impossible."
  6. The house bill, he contended, is inequitable and would complicate the individual income tax.
- Snyder's stand against the bill was no surprise, since he had taken the same position when it was before the house committee.

## Plan Fall Festival Revival This Year

Charles H. Carey post 56, American Legion, plans this year to revive its Fall Festival, which was an annual feature before the war outbreak.

H. E. Zepernick was appointed general chairman of the Fall Festival committee at the Legion's meeting Monday night.

Zepernick will announce committee personnel at a later date.

The Legionnaires also heard a report on the activity of its Junior baseball team. The club will play a practice game with the AMVET team at Centennial park Saturday afternoon.

## Lisbon Forms Jr. C. of C.; Jones Named President

LISBON, April 22.—Dr. James E. Jones was elected president when the Lisbon Junior Chamber of Commerce organized Monday night.

Other officers include: Vice presidents, William S. Frew and Ross Armstrong; board of directors, J. W. Edwards, William Morgan, Jr., Edwin Bucher and Jack Mills; one-year terms, Howard Cole, William Kessler, David Edgerton, George Nace, Jr. Robert Leggett and G. V. Weinhold.

The secretary and treasurer of the organization, which now includes about 40 Lisbon men, will be appointed by the president.

James Riggs of East Liverpool, state Jaycee vice president, was in charge of the organization meeting.

## Bowles Recommends Panel Be Named To Study Prices

(By Associated Press)  
WASHINGTON, April 22.—Chester Bowles, former OPA administrator, suggested today the appointment of a voluntary price board of businessmen to seek general price reductions in industry.

Bowles advanced the suggestion following a call on President Truman to congratulate him on his speech to the annual Associated Press luncheon in New York yesterday.

"I agree with him (Mr. Truman) 100 percent on the necessity for bringing prices down to avert a collapse," Bowles told reporters. "The speech was an excellent job. I hope it will be taken to heart. It was a thoughtful and complete statement of the problem."

Senator Taft (R-Ohio) commented

## Swollen Red River Drives 500 from Homes

Completely surrounded by water, this farm opposite Grand Forks, N. D., on the Minnesota side of the Red River, is one of the many inundated by a flood which spreads as far as 30 miles from the river's banks and has driven 500 from their homes in the nation's bread basket.

## PHILADELPHIA GETS GOP NOD

### City Is Selected For Republican Convention Opening June 20

(By Associated Press)  
KANSAS CITY, April 22.—The 1948 Republican nominating convention will be held the week of June 20 in Philadelphia, the city where the party nominated its first star candidate in 1896.

Choice of Philadelphia as host to its fifth GOP convention came late yesterday as the Republican national committee overwhelmingly disregarded the recommendation of its site sub-committee which had given the nod to Chicago.

The committee's action met with the general approval of party leaders here for the two-day meeting to pick a convention city and discuss finances for 1948.

## Warning Is Issued After Treated Wheat Is Stolen

Millers of Columbiana and adjoining counties were warned today by Sheriff George Hayes to be on the lookout for wheat that had been treated for planting which might be injurious to humans or animals if it should be milled or ground for feed.

The warning followed a report to the sheriff's office Monday afternoon by Samuel Clair of Hanover township, who stated that 30 bushels of sacked and treated wheat for planting, had been stolen from his farm, along with approximately 200 bushels of oats, still in the bins, which belonged to J. A. Marquis, former owner of the Clair farm.

## Senate Approval of Aid To Greece, Turkey Seen

(By Associated Press)  
WASHINGTON, April 22.—With a rare certainty of approval, the senate votes at 4 p. m. today on President Truman's plan to give Greece and Turkey \$400,000,000 in financial and military aid to keep them from collapsing into the arms of Communism.

The new venture in foreign policy approached its first congressional showdown amid indications that it would receive far less emphatic backing than the last major decision in that field—the senate's 89 to 2 ratification of the United Nations charter on July 28, 1945.

A score, more or less, of dissenters apparently stood ready to cast their votes against the first segment of the developing program of aiding "free peoples." They have predicted variously that it will (a) bring eventual war with Russia, (b) bankrupt the American economy and (c) destroy the United Nations.

Nearly three times that number of senators have lined up to pass the bill and send it to the house. Favorable action there also seems assured later.

## Deming Foremen Dine, Name Officers

Leonard Perkins was installed president of the Deming Foremen's club at the final dinner meeting of the season Monday evening in Greenford grange hall.

Other new officers are: Russell Greenawald, vice president; Fred Limestahl, treasurer, and Leland Taylor, secretary.

Rev. R. E. Mosher of the Friends church spoke on the subject, "Qualities of Leadership." He stated that "we don't want dictators or bosses to command us, but want leaders to show us the way to achieve the goal we desire." He expressed his point by taking a specific meaning for each letter in the word "Leadership."

L—Always a learner—New and better ideas are the wheels of progress.

E—Energy—To be a leader takes lots of drive and endurance.

A—Altruism—To have a regard for the rights and welfare of others.

D—Decisiveness—Make up your mind.

E—Enthusiasm—Is the spark in motor.

R—Religion—Leaders of youth realize the need of this fourth "R" in education.

S—Sense—Common sense which is not as common as it ought to be.

H—Humor—As important as lubrication is to machinery.

I—Integrity—Honesty and reliability.

P—Passion—Passion for people. Men yearn to feel that some one has regard for them.

He said that in industry "passion for people rather than passion for profit" distinguished the leader from the mere executive.

## Postoffice Not Public Areaway, Is Warning

In accordance with a government directive, Postmaster A. E. Beardmore today warned citizens against trespassing on the postoffice property.

People are asked to stay off the lawns surrounding the building and to refrain from using the driveway west of the building as a shortcut.

Beardmore also said that taxis and private cars have been using the driveway in order to avoid going through the traffic light at E. State and Lincoln.

He asked that these violations cease at once.

## AIRLINER HIT BY TRAINER IN GEORGIA

### Both Plummet to Ground and Burn; Line Executives Are Victims

(By Associated Press)  
COLUMBUS, Ga., April 22.—Nine persons were killed today when a special Delta Airlines plane carrying eight executives of the company, included one top official, collided with a civilian plane and both crashed onto the airport where they were enveloped in flames.

The Delta plane was coming into the airport for a landing when, airline officials said, the civilian plane "came down from overhead and struck the tail of our ship." Both planes plunged 30 feet to the ground, the civilian plane falling underneath the tail of the Delta ship which had broken in half.

The two planes burned for more than an hour after the crash. Flames made it impossible to rescue any of the victims.

The Delta plane was on a survey flight. The name of the civilian plane pilot, the ninth victim of the crash, was not learned immediately.

## Casualty List

Delta listed its dead as: George R. Cushing of Philadelphia, Pa., vice president of operations and a veteran pilot who was flying the ship.

Lindey W. Camp, Atlanta, solicitor of the Fulton Municipal court and attorney for Delta.

H. R. Bolander, San Francisco and Memphis, director of operations.

J. V. Little, Cartersville, Ga., district traffic manager.

L. T. Campbell, Hapeville, Ga., superintendent of communications.

E. A. Rainard, New York, chief flight superintendent.

John L. Schneider, Natchez, Miss., superintendent of stations.

Clayton Berry, Atlanta, superintendent of airport construction.

"Apparently no one escaped," Delta's headquarters in Atlanta reported, explaining that the burning ship made it impossible to rescue those aboard.

The Delta plane was a twin-engine DC-type. It was obtained from the army and had been converted for pilot training and survey flights.

T. J. Peddy, manager of Eastern Air Lines here, said he was informed that a training plane crashed into the tail of the Delta plane as the latter approached the end of the landing strip.

The training plane, a reconverted BT-13 fell underneath the tail of the Delta plane. Both caught fire.

## Former Union Agent Sues For \$32,048

CLEVELAND, April 22.—The CIO-United Steelworkers of America was a defendant today in a suit for alleged unpaid overtime filed by a former union official.

Finis Reynolds of Canton, a former international union field representative who filed the suit, asked \$32,048.99 and a like amount in liquidating damages from the union and its officials for alleged unpaid overtime from June, 1942, to July, 1945.

Reynolds stated that the petition the amount sought represents time and a half for overtime spent in his services for the union.

Reynolds asserted he was employed as a field representative during the period named and that he was denied compensation at time and a half when his work exceeded 40 hours a week.

Court attaches said they had filed hundreds of suits of workers against employers for portal-to-portal and compensating time compensation but that this was the first in which an international union had been charged with violation of the Fair Labor Standards act.

Named as defendants are: United Steelworkers of America, Pittsburgh; Philip Murray, as an individual and as union president; David J. McDonald, as an individual and as secretary-treasurer of the union and I. W. Abel, as an individual and as director of the union's district 27 at Canton.

Reynolds formerly was president of the steel union local at the Canton plants of the Timken Roller Bearing Co.

## No Half-Hearted Salvation

Bernard M. Baruch is one of the first to say in the United States what every honest observer is saying in England: that the waste of World War II cannot be offset by anything less than full production.

Mr. Baruch, whose age and prestige give him the right to say what he believes without fear of reprisals, recommends specifically that the United States adopt a 44-hour week, with no strikes or layoffs, until Jan. 1, 1949. "The results," he declares, "would be electrifying."

He denies that loans and grants are going to save anything "One of the world's delusions," he asserts, "is that the world can be set right by borrowing money. It can get along only if men work. If we accept the challenge to preserve civilization, it means greater effort—greater even than that exerted during the war."

There is sound statistical evidence that Mr. Baruch is right when he proposes a longer work week to overcome a labor shortage. L. C. Walker points out in the current issue of American Affairs that the 40-hour week, vacation schedules, federal employment, G. I. education programs, social security, plus the increase in the population, necessitate a labor force of 69,000,000 in 1947 to produce a standard of living equal to that of 1929-30. This calculation does not consider the widespread inefficiency of the labor force, a factor which Mr. Walker believes more than offsets technological advances.

He suggests that the United States has a net shortage in its labor force of 10,000,000 persons, a figure which may be challenged but which represents the same problem tackled by Mr. Baruch when he proposes a national increase in the work week. To have strength the United States must have more production. To have more production it must have more work. There can be no half-hearted salvation.

## Poor Salesmanship

"We make no apology for 75-cent or 85-cent butter," an American Dairy association official has told Ohio dairymen, and he goes on: "We make no apology for 65-cent cheese or 20- or 25-cent milk. If the public knew how much it was getting for these prices, it wouldn't complain."

Granted that dairy products provide exceptionally nutritious food, a take-it-or-leave-it attitude is not sound merchandising practice, whether the goods for sale are hairpins, tractors or cottage cheese.

Furthermore, Ohio dairymen, by using their influence with rural legislators to keep unfair and outmoded restrictions on the sale of oleomargarine, are alienating the sympathy of a substantial portion of Ohio's urban population. It is just another item in the campaign harassment, which, when it goes far enough, will bring belated retribution on the rural areas which for years have dominated the legislature.

## Beyond The Law

Passage of a strong labor law reform bill by the House, prospect of similar, if somewhat milder, action by the Senate and the possibility that President Truman may give Congress a green light in handling this issue in 1947 combine to make a dangerous illusion.

The United States can no more escape a plague of strikes and unsettled industrial circumstances with a strong bill to reform certain practices than it was able to escape these handicaps by passing the National Labor Relations Act.

Those who say that law is the cause of the conditions they now hope to correct with another law need only to recall that in 1935 it was supposed to be the ultimate answer to the problem of labor relations. The ultimate answer lies elsewhere.

Until there exists among the great majority of union leaders and management representatives an overwhelming inclination to compromise their divergent points of view, without resort to strikes, there will be strikes. There will be inequities and inequities. There will be a labor relations problem.

In this country there continues to be a popular conviction that things can be made better by law, which is absurd. Laws are effectual only when they reflect what people are willing to support. If the great majority of Americans now are ready to quit waging war in labor relations, things will get better. If they aren't, things will get worse.

Labor law reform is being undertaken on the premise that the public and most union members are tired of the excesses of union leaders, something the leaders dare not admit.

## He Changes His Mind

Charles A. Lindbergh, who before Pearl Harbor was an isolationist, now advocates aiding financially and by force if necessary those "peoples who believe in a way of life basically similar to our own." Specifically mentioning aid to Greece and Turkey, he observes that "in a rocket-atomic age the welfare of other nations is more than important—it is vital to us. There is no better way to attain security, peace and the progress of civilization."

That Lindbergh has come around to a new concept of America's role in world affairs is not surprising. Many have. But what has made his views, whether as an isolationist or as an internationalist, so newsworthy? The fact that a man is a skilled aviator should not make him an authority on world affairs any more than should a film star's endorsement of a presidential candidate mean that as Hollywood goes, so goes the nation.

## LSMFT

It will be interesting to observe how England's one-shilling increase in cigarette prices affects Britons' smoking habits. Heretofore cigarettes were not cheap,

being the equivalent of 48 cents a pack, but under the new schedule they will be 68 cents.

This latest result of Britain's austerity program is in line with its attempts to reduce use of scarce dollars for imports. Cigarettes are not a necessity, but with clothes rationed, eggs available principally in powdered form, electricity limited, and oils and fats at a premium, tobacco helped quiet jumpy nerves.

In England, L S M P T takes on new meaning—Less Smoking—More for Treasury.

The Stars Say  
By GENEVIEVE KEMBLE

For Wednesday, April 23

ACCORDING to the predominant sidereal operations, it is probable that only by most sagacious, shrewd and thoroughly organized and astutely executed plans, purposes, and techniques, can some stubborn, blocked or hopeless situations be definitely and decisively broken up. Not only determination and perseverance, together with a profound grasp of tricky underlying conditions is needed. The hidden and subtle must be dragged into the open and summarily dealt with. Under such tactics, enduring and surprising progress may be looked for, with happy climax.

For the Birthday

Those whose birthday it is are urged to take serious reflection and well-developed and organized tactics, plans and procedures, in order to understand and effectually smash stubborn obstacles, blocks and sinister efforts, designed and pushed with intent to upset, postpone and smash established, desired objectives, goals and wishes. Some deep-seated or vicious conditions or enemies may have to be dragged into the open, before substantial and far-reaching progress may be attained. It would seem that the end might justify the means, in both personal and business ambitions and happiness.

A child born on this day should be well equipped with energy, determination, forces and faculties, for overcoming stubborn obstacles and threats to its fortunes and even its happiness.

## GUARDING YOUR HEALTH

What To Do If You Swallow "Wrong Way"

By HERMAN N. BUNDESEN, M.D.

There are a few things which put us into greater panic than swallowing something "the wrong way." To get anything lodged in the food passages or air passages creates a frightening sensation and we want to do something about it in a hurry. Thus, if the object is in the air passages, the patient may be pounded on the back. In such an emergency a child is often held upside down by his heels. For similar stopping of the food passage, such first-aid measures as eating bread crusts or drinking water are likely to be tried.

## May Be Dangerous

According to Dr. Porter P. Vinson of Richmond, Virginia, these procedures are not only useless but may endanger the patients' life. They frequently increase the difficulty of removing the object. He says that it is only in rare cases that emergency treatment is required.

Now and then some substance may be caught between the vocal cords in the larynx or voice box and this may produce spasm resulting in suffocation. In these instances, however, the only treatment that is of any avail is an operation known as tracheotomy in which the windpipe is cut open so that the patient can get air into the lungs.

## Types of Objects

Various types of objects that become lodged in the esophagus which is the tube leading from the throat to the stomach, require different

methods for removal. In some cases attempts to push an object into the stomach, using a stomach tube, are dangerous and unwise.

The first thing that should be done in all cases is to determine what type of object is present and where it is located. X-ray examination is helpful in detecting metal objects, but such things as bones which have been swallowed are not easily seen in the X-ray film.

## Making Examination

If there is any doubt about some object being present in the esophagus, an examination should be made with an instrument known as the esophagoscope which is made up of a tube with lights. This can be passed directly into the esophagus, thus enabling the physician to look directly into the esophagus, and so determine if any object is present and just where it is located. The physician will not pass a stomach tube into the esophagus of any person who has difficulty in swallowing or who is thought to have swallowed some object which is caught in the esophagus.

If an object has been breathed into the lungs or air passages there may be some wheezing or noisy breathing. X-ray examination may help to show where the object is located. Examination with a bronchoscope which can be passed directly into the lung is also advisable. The object may also be removed through the bronchoscope.

Letters to Dr. Bundesen should be addressed in care of 235 E. 45th st., New York City.

## BARBARA ROOSE, JACK WHITE STAR

Fill Leading Roles In  
Leetonia High Play  
On Friday Night

LEETONIA, April 22.—With Barbara Rose and Jack White playing the leading roles, the Senior class of Leetonia High school will stage "The Trail of the Lonesome Pine," a three act drama at 8:15 p. m., Friday.

Life in the Blue Ridge mountains of Virginia is portrayed in this production based on the famous novel by John Fox Jr.

"June," the heroine is played by Barbara Rose with Jack "Babe" White doing the part of "Jack Hale," the stalwart young hero from the North.

Herbert Weaver depicts "Dave," in love with his cousin June, and is responsible for much of the conflict in the play.

Supporting cast included "Bud" Toliver, the primitive mountain hunter, portrayed by Ralph Van Fossan, "Judd Toliver," the stern with being by Dick Weikart. Polly Tatham is cast in the role of "Sal Toliver" with Peggy Calvin as "Hannah," stepmother of all the Tolivers.

Betsy Herr will do "Ole Hon," the demure wife of "Uncle Billy Beans," acted by Elmer Sweetley. Jerry Mercure will play "Ellie Mae," who "just can't remember."

"Red Fox," the villain, is portrayed by Paul Murphy.

Others in the cast included Anna Mae Barnes who will be "Anne Saunders," a school teacher from

the North, and Lorna Hilliard cast as "Ma Fain," the only one of her clan to appear on the stage.

Gatherine Phillips will appear as "Loretta."

The Leetonia Merchants and Manufacturers club held its semi-monthly meeting at the I.O.O.F. hall at noon today.

The Past Noble Grand club of D. Wallace Lodge of Rebekahs, will hold its monthly meeting Monday evening at the I.O.O.F. hall with Mrs. Louis Atkinson as hostess.

Thirteen Boy Scouts of Troop No. 13, of St. Paul's Lutheran church, with Scoutmaster Paul W. Atkinson and Assistant Scoutmaster Howard Beilhart, spent the weekend at the McKinley reservation, Lisbon.

Mrs. Lucile Showers of Gibsonia, Pa., spent the weekend with Mrs. Edith Reich and Miss Myrtle Noid.

The I. F. Mellinger Bible class of St. Paul's Lutheran church will hold its monthly meeting at the church at 8 p. m. Tuesday. Rev. Hans Simoleit, pastor of St. Peter's Lutheran church of Monaca, Pa., will be guest speaker. The committee in charge includes John Theil, Earl Halverstad, Merle Stambaugh and Rev. T. P. Laughner. Men from St. Peter's church will be guests.

## HOUSE COMMITTEE SLICES BUDGET

Whacks Off Whopping 47%  
Of Department's 1948  
Money Request

By WILLIAM F. ARBOGAST  
WASHINGTON — An unprecedented 47 per cent budget cut was recommended for the interior department today by the house appropriations committee.

Slashing vigorously in its promised "meat axe" drive to chop \$6,000,000,000 from President Truman's \$37,500,000,000 federal budget for 1948, the committee sent to the house floor a \$156,538,513 bill to operate the interior department for the 12 months starting July 1.

This is \$138,831,907 below the President's budget estimates, \$101,362,173 under current appropriations but \$26,860,053 above the department's last prewar fund in 1938. With a single exception—the fine Arts commission which received the

full \$12,000 it requested—every one of the department's far-flung activities felt the committee's axe.

If congress follows the committee's recommendation, the division of power and the division of geography will be abolished, the oil and gas division will be cut down to "hot oil" act enforcement activities, and thousands of interior department employees will be looking for jobs.

And such multi-million dollar agencies as the Reclamation bureau, the Bonneville (Ore.) Power administration, the Bureau of Indian Affairs, the Geological survey, the bureau of Mines, the Fish and Wildlife service and the National Park service, will be required to get along on sharply-trimmed budgets.

The committee approved \$3,750,000 for road work in Alaska—a cut of \$603,000—after hearing army officials stress the importance of high-

## A Weak, Run-Down Feeling Is Often A Warning

That The Red-Blood  
Is Getting Low

If you do not feel like your real self, do not have the urge to be up and doing, why not check-up on your blood strength? Look at the palms of your hands, your fingernails, your lips, the lobes of your ears—are they pale and off color?

Every day—every hour—millions of tiny red-blood-cells must pour forth from the marrow of your bones to replace those that are worn-out. A low blood count may affect you in several ways: no appetite, underweight, no energy, a run-down condition, lack of resistance to infection and disease.

To get real relief you must keep up your blood strength. Medical authorities, by analysis of the blood, have by positive proof shown that SSS Tonic is amazingly effective in building up blood strength in non-organic nutritional anemia. This is due to the SSS Tonic formula which contains special and potent activating ingredients.

Also, SSS Tonic helps you enjoy the food you eat by increasing the gastric digestive juice when it is not-organically too little or scanty—thus the stomach will have little cause to get balky with gas, bloat and give off that sour food taste.

Don't wait! Energize your body with rich, red-blood. Start on SSS Tonic now. As vigorous blood surges throughout your whole body, greater freshness and strength should make you eat better, sleep better, feel better, work better, play better, have a healthy color glow in your skin—firm flesh fill out hollow places. Millions of bottles sold. Get a bottle from your drug store. SSS Tonic helps Build Sturdy Health.

ways to support military bases in the northern territory.

Well over half of the entire reduction in the bill was applied to the reclamation bureau. A battle to restore some of the funds will be fought out on the house floor when the measure comes up for debate beginning Thursday.

BUICK CARE  
KEEPS BUICKS BEST

REMEMBER the day you first romped away in that Buick of yours? How those eight Fireball cylinders fairly floated you over the hills—how those road-steady two tons of lively car answered sweetly every light touch of your hand on the wheel—how you glided along with foursquare Buick springing smoothing every wrinkle in the road?

That's what your Buick was built to do. Years and years of that kind of driving are in it—especially when it gets the interested, informed car care this fine an automobile should have.

That doesn't mean just periodic lubrication, a body wash, battery check or bolt-tighten. It means thorough attention by competent Buick men—attention that keeps a Buick always a Buick.

Buicks are our babies. Even the smallest details are handled the way they should be for a Buick. We have Buick tools that do jobs better and quicker. We have men who know Buicks best. We have Buick-engineered parts that are precisely right for your car.

Put that all together and it's Buick car care.

Pretty clear, isn't it, that here is where your Buick will receive the best attention? After all, we love 'em heart and soul.

## "TOP" SECRET

One of the things that play a part in Fireball snap is Buick's wafer-thin steel cylinder gasket. Just 15 thousandths of an inch thick, it's a "must" for the high compression this powerful straight-eight is designed for. Other kinds that are thicker cut down the compression and the car's liveliness.

In carbon and valve jobs, or any other where this gasket must be replaced, only this Buick gasket will assure the fit Buick engineers intended. No wise Buick owner would have any other in his engine.

Just another example of how you get more for your money—in major adjustments, tune-ups, lubrication or anything your car needs—when you make sure it gets Buick car care.

BY RUTH MILLETT

IT'S WOMEN like Mrs. Walter Pearson of Liberty, Mo., who make life tough for other women.

Mrs. Pearson is the young woman who recently had her picture in the papers after she had given birth to twins in a singularly nonchalant manner. Not only did she skip the formality of calling in a

doctor, but when her husband came home two hours after the twins' arrival, he found his wife sitting on the davenport peeling potatoes. The newest members of the family were lying beside her.

So long as that story is remembered, it is going to be a bit hard for a woman to make much of a story out of her " ordeal."

It's going to be especially hard on the mothers who have been holding their bridge table audiences spell-bound telling about how their doctors made them get out of bed the very next day.

MAKE IT HARD TO BOAST

It's these "super women" who always make it hard for the average woman to find anything to brag about.

They can 200 quarts of vegetables, while the average woman feels good about a few glasses of jelly. They can turn their husbands' old suits into fashionable suits for themselves.

No matter how good a woman thinks she is, there's always a "super woman" to put her to shame.

Coverdish Dinner Held By El Furno Club

A coverdish dinner was enjoyed by 12 members of the El Furno club Monday evening in G. A. R. hall.

## MOUNT TO BUILD MEN'S DORMITORY

ALLIANCE, April 22—A combination men's dormitory and classroom building, which can be converted to warehouse space later, the cost not to exceed \$55,000, will be constructed on the campus of Mount Union college this summer.

The building will be ready for use by September, according to an announcement made today by Ronald G. Weber, business manager of the college.

Cost of the building is not being paid from the Second Century Building Fund campaign. It is being financed by current income and commercial borrowing to be retired from current income.

The site of the new building will be between the Alpha Tau Omega fraternity house and the Bingham dormitory. It will be a two-story, red brick, colonial type building, 126 feet long and 34 feet wide.

The first level will be used for two classrooms and storage space and will face Penn avenue, paralleling the New York central right of way. The second floor will contain 13 temporary rooms, each large enough to accommodate four men; a proctor's room with private bath; a modernly appointed foyer, and sanitary facilities for the 52 men who will live in the building.

Although the building will be two stories, it will appear as a one story structure as one looks east from Chapman Hall because of the grade where it will be built. The foyer to the men's dormitory will face Chapman Hall.

When the pressing need for classroom and dormitory space is alleviated by the Second Century building program, the entire 10,000 square foot building will be converted to warehouse, workshop, and storage space for the college maintenance department.

## CAGE FANS CAN SHOW TEAM APPRECIATION AT BOOSTER BANQUET ON TUESDAY NIGHT

Salem's basketball fans—the same who jammed every available space whenever Quakettown played basketball this season—will have a chance to show the local cagers their appreciation for one of the best records ever recorded when the annual Salem Boosters banquet is held at the Saxon club auditorium, Railroad st., at 8 p. m. Tuesday.

Coach Harold Anderson, famed mentor of the Bowling Green Falcon cage squad, will be the featured speaker at the event.

Besides Anderson, Coaches Bob Miller and Frank Tarr of Salem, Faculty Manager Fred Cope, the players and other local sports celebrities will take part in the program.

In Anderson, who formerly coached at Toledo university, Salem fans will have an opportunity to hear one of Ohio's better known basketball experts. His record speaks for itself.

Twenty-eight victories in 35 games, including respective win streaks of twelve and ten games, 2,147 points and consideration for an unprecedented fourth straight bid to the National Invitation tournament in New York sums up the outstanding record of the 1946-47 Bowling Green university cage squad.

Although a bid to the Gotham classic was not gained, the Falcons were regarded a potent quintet both in Ohio and the nation's basketball circles.

The renowned BG coach, Harold Anderson, with 13 lettermen returning from service and last year's squad, got his team off to a fine 12-game win streak before Coach Cope's Falcons in Madison Square garden 52-45. Western Kentucky, Boston college, George Peppardine of Los Angeles, Central Michigan and Kalamazoo College were some of the cage powers bowled over early in the season.

Playing five of the next seven games on the road, the Bee Gees faded slightly as they dropped all the foreign court engagements. The losses came at the hands of some of the stiffest opponents on the BG schedule—Syracuse, Western Michigan, Loyola of Chicago and Western Kentucky.

Coach Andy went to bat with a two-team system in mid-January and it proved more than successful as the Falcons completed the season with 15 wins in 16 starts.

The setback was inflicted by Loyola of Chicago in the Chicago Stadium round robin tournament, which the Falcons had won the year before.

Anderson can look toward next year with great hope. Only one senior will depart via the graduation route. Along with the 14 varsity men from this year, a goodly number of junior varsity cagers will be vying for a varsity berth.

Tickets for the banquet, available

W. HAROLD ANDERSON

to the public only through Friday of this week, are on sale with Joe Kelley, Martin Polder, Peanuts Debnar, P. K. Laughlin, Art Brian, Loyal or Carvel Phillips, Bob Miller, and Ben Barrett.

Only a limited number are available and ticket reports must be turned in Friday so fans are urged to make their reservations early.

**Feller Seeks First Victory Against Browns**

(By Associated Press)  
CLEVELAND, April 22.—Bob Feller tries again today for his first victory of the 1947 season as the Cleveland Indians open a two-game series with the St. Louis Browns.

Feller bowed to the Chicago White Sox 2 to 0 in the opener here last Tuesday but only one of the runs off him was earned. Bob Muncie is Feller's mound opponent.

## Sale of Sutphin Ice Palace Now Almost Complete

Cleveland News Reports Sale to Sportsmen's Group for 3 Million

(By Associated Press)  
CLEVELAND, April 22.—Cleveland's Arena, one of the few privately owned sports amphitheaters in the country which has "burned its mortgage," today was reported by The Cleveland News "on the verge" of being sold to a sportsmen's syndicate for \$3,000,000 to \$5,000,000.

Oscar Johnson, partner in the famed Shipton-Johnson Ice Palaces and president of the Pacific Coast league hockey franchise at Portland, Ore., and Lou Jacobs, wealthy Buffalo, N. Y. concessionaire, were named by The News as leaders of the syndicate bidding for purchase of the Arena.

Johnson was unavailable for comment on the purported transaction, but Jacobs, owner of the Buffalo American Hockey league franchise, denied at Buffalo that he was involved in the deal and explained that it would be impossible for him to obtain ownership of both the Buffalo and Cleveland Barons franchises in the same league.

However, local sports observers said recurrent reports that the Barons would be advanced to the "major" National Hockey league would be consistent with Jacobs' participation in purchase of the Cleveland sports palace. The Cleveland Barons' franchise in the basketball Association of America and various ice show holdings also would be included in the Arena sale, said The News.

Maurice Podoloff of New Haven, Conn., president of the American Hockey league and the B. A. A., also was linked by the paper to the transaction as future manager of Arena activities.

**Plan Baseball Practice**  
Weather permitting, the newly organized Salem Merchants Athletic club baseball team will practice at Tolerton field at 5:30 p. m. Thursday.

Players interested in trying out are asked to report.

a brief workout in the Lakewood stadium yesterday, concentrating on running and some pitching. The infield and outfield were too wet for further action.

Cope said today he thinks the team can beat Boardman and "place high at Uhrichville if all the boys come through in top form," something they have not been able to do so far this year.

## Salem Track Team Set For First Busy Week

Rib Allen's Men Slated Here Today, Quakers Go Uhrichville Way Friday

A full slate of activity faces the Salem High track squad this week, with a dual meet with Boardman carded for tonight and the Uhrichville Night relays Friday night.

The Boardman meet will be held at Reilly stadium after school. Preliminaries in the Uhrichville affair will be held at 4 p. m. Friday, with the finals beginning at 7:30.

Cleveland Rhodes, the 1946 champion at Uhrichville, is again making an appearance in the meet. Other top-notch teams competing in the meet include Canton McKinley, Boardman, East Palestine, East Liverpool and others. Fifteen teams will participate.

The meet will include but not be limited to 15 events, the pole vault having been eliminated because "it takes up too much time." Coach Fred Cope will take 16 Quaker thinclads to the meet.

The performance of Glenn Thorne in the Mansfield relays was heartening to Cope, although the slim Senior miler did not come through with his best time of the year in taking third place. His time of 4 min. 46.4 sec. was about a second slower than he ran the four laps against Louisville in a dual meet here last week.

The winning miler, Holleman of Akron East, broke the tape in the good time of 4 min. 37.8 sec. If Thorne is to give him a race in the district meet here next month, he will have to trim about eight seconds from his best time.

Bob Payer, Junior discus hurler, fouled in all four of his attempts to heave the platter at Mansfield. Cope worked with him for some time following the event Saturday, and hopes to have taken some of the kinks out of Bob's form. He is counted on to take some points at Uhrichville.

He has tossed the discus 140 feet in practice.

Salem's three points, gained by Thorne, at Mansfield gave the local team 19th place in a field of 59. East Palestine recorded 6½ points for 14th place, while Boardman copped 15th with 6½ points.

Boardman's team, coached by Lowell "Rib" Allen, will be a tough hurdle for the Copemen to get by. They are led by McCaughey, a discus man who copped the event at Mansfield with a 139 ft. 2½ in. heave.

Always a good dual team, Allen's squad should give the Quakers a busy afternoon.

Cope said today he thinks the team can beat Boardman and "place high at Uhrichville if all the boys come through in top form," something they have not been able to do so far this year.

## ATTENDANCE THIS SEASON MAY EQUAL MAJOR LOOP MARK

Despite Postponements, Fans Fill Parks In Record Fashion

By JOE REICHLER  
Associated Press Sports Writer

Judging from early returns, the attendance at the major league baseball parks this season should come pretty close to matching last year's record.

Despite poor weather which has caused the postponement of 16 games during the first week of action and cut into the crowds in others, the 16 big league clubs drew a combined total of 786,991 cash customers, an average of 18,309 per game.

During the first week a year ago, the majors, taking the advantage of perfect baseball weather, got in 50 of their 52 scheduled games which attracted an average of 20,028 per game.

With the increase in the number of night games and added interest in such cities as Pittsburgh and Cleveland, where new owners have taken over, it is not inconceivable that the 1947 attendance will approach, if not top, last year's amazing figures.

Yesterday only two of the five scheduled games were played.

The limited action produced one big upset as the surprising Chicago White Sox, taking liberties with the left-handed shoots of Hurricane Hal Newhouse, the Detroit ace, slapped down the Tigers 6-4 to remain unbeaten atop the American league standings.

In registering their third victory of the campaign, Ted Lyons' crew nudged Newhouse and two successors for 10 safeties, four of them for extra bases.

The Sox swatted Newhouse for five runs in the first five innings to settle the issue. Newhouse was wild, walking five men during that time.

He uncorked a wild pitch in the first inning that corked Ralph Hodgins and sent the Chicago outfielder to a Detroit hospital with a concussion and a bad bruise. Hodgins' condition later was reported as "satisfactory."

In the National league's only contest, the Chicago Cubs, behind Hank Wyse's three hit pitching, won their third straight by blanking the Cincinnati Reds 3-0 at Wrigley field.

A slow-rolling infield hit by Ray Lamanno in the second inning was the only safety allowed by Wyse until the ninth. Then Bobby Adams and Lamanno each singled.

Kent Peterson, making his first major league start, matched Wyse's airtight pitching except for the sixth inning when the Cubs broke loose for five singles and all their runs. Len Merullo led the Cubs' 10-hit attack with four safe blows.

Rains washed out the scheduled games between Boston and Washington in the American league and Brooklyn-Boston and New York-Philadelphia in the National.

produce a report within two or three weeks.

He said he favors some sort of a price board to function within the Department of Commerce or the Economic Advisory committee to make suggestions to business for reducing prices by industries.

"It looks like price cutting has been tossed out of the window," Taft said. "We now see pretty clearly that corporations are going to raise wages and with increased costs they are not likely to fall in with the idea of cutting prices."

Taft, who also heads the senate Republican policy committee, has supported President Truman's repeated appeals to business to bring prices down. Unlike the President, who said that wage increases were the alternative, the Ohio senator

has argued that pay raises would tend to peg prices permanently at higher levels.

## Sen. Lucas Differs

However, Senator Lucas of Illinois, the Democratic whip, told a reporter he thinks U. S. Steel can pay the wage increase and still cut prices.

"I think there is enough margin in corporation profits generally to meet wage boosts and cut prices at the same time," he said.

Taft told a reporter that even if wage increases make tax reductions less desirable from an inflationary standpoint, he still believes the time has come to push levies downward.

"The tax schedule now is dangerously high," he declared. "We cannot maintain such rates permanently on individual incomes. And if we don't cut taxes this year, we may never cut them."

## RESTORE SANITY TO 100, REPORT

## Cleveland Hospital Has Brought Worse Cases Back by Operation

CLEVELAND, April 22—Personalities of nearly 100 individuals, who were engulfed in the dark shadow of insanity from four to 16 years ago, have been restored at Cleveland State hospital in the last 18 months by brain operations, reports Dr. Harry A. Lipson, staff psychiatrist.

The operations, known as "prefrontal lobotomy," were performed upon patients in the hospital's "back ward" who formerly were considered hopelessly insane and had failed to respond to years of insulin, metrazol or electro-shock treatments, the physician reported yesterday.

Following surgery, which severed nerve cords controlling much of an individual's emotions and connecting the front portion of the brain with the thalamus, the patients became amiable and responsive and were transferred to the hospital's "quiet" ward, he said.

Some 25 of the mentally transformed persons were permitted to return to their homes on trial visits, said Dr. Lipson, but now are in need of training for readjustment to productive employment.

The old problems of readjustment to economic activities "are still there," Dr. Lipson continued. "We have not changed those. We have not solved the emotional conflicts. We have only reduced the intensity of the patients' reaction to those conflicts."

## BAKERY DRIVERS AT COLUMBUS ON STRIKE

(By Associated Press)  
COLUMBUS, April 22—Only one day after "wash day," Columbus housewives had the prospect today of overtime in the kitchen baking their own bread.

A strike of truck drivers at four of the city's largest bakeries threatened a 75 percent cut in bread supplies to groceries and restaurants.

After the strike was called yesterday, housewives cleaned out the bread shelves at grocery stores.

Leonard Newmark, president of the AFL truck drivers union, said 131 drivers were affected by the strike and that about 175 union bakers would not cross picket lines.

The drivers demanded a 10 percent commission on all sales. The drivers now are paid an eight percent commission.

A spokesman for the companies—Continental Baking, General Baking Co., Taystee Bread Co. and Ward Baking Co.—declared:

"We feel that these men are not entitled to any monetary considerations at this time because they are now earning excellent salaries."

Company officials said the average wage paid to drivers is \$90 a week and that some drivers earn as much as \$150 a week.

## Threaten Strike
